

TEAC

1x15 DAISY CHAIN SATA DVD Duplicators

1x15 Daisy Chain SATA DVD Duplicator

The answer to unlimited production needs...

- Available with 15 DVDRW drives per duplicator
- Can operate as stand-alone tower or in a "Daisy-Chain" with up to 60,000 towers!
- Most cost-effective per drive unit available
- 250GB HDD included

TEAC now offers the largest and the most convenient stand-alone Daisy-Chain duplicator available.

TEAC 1x15 duplicator is a SATA Daisy-Chain duplicator which offers 15 DVDRW drives per tower providing not only the greatest production volume amongst any other standalone duplicator series, but is also the most cost-effective per drive duplicator available.

These units can still be operated individually or they could be daisy chained up to 60,000 units for near unlimited production.

Using an easily divisible number like 15, these units can easily duplicate hundreds of thousands of discs at a time within minutes speeding up production and eliminating wasted time loading masters unto multiple individual towers.

TEAC's 1x15 SATA Duplicator System has 17 ports plus the Daisy chain communication port. All writers will be set as Master on their individual ports.

Easy Connect!

Product Specifications

Models:	TEAC DVW/D115A/KIT/DC
